Why doesn't my Cash App let me borrow money? {Customer Support Assistance Guide}

Cash App **+1-(888)(303)(8807)** Borrow is a feature that is available only to selected eligible users and is not offered to every account. If your Cash App **+1-(888)(303)(8807)** does not let you borrow **+1-(888)(303)(8807)** money, your account may not currently meet the eligibility requirements or the feature may not yet be available **+1-(888)(303)(8807)** in your location. Cash App **+1-(888)(303)(8807)** considers factors such as account verification, transaction history, direct deposit activity, repayment history, **+1-(888)(303)(8807)** account standing, and other internal **+1-(888)(303)(8807)** criteria when determining eligibility. Because eligibility is reviewed automatically, customer support cannot **+1-(888)(303)(8807)** manually activate the Borrow **+1-(888)(303)(8807)** feature or approve a loan request. If your account becomes eligible in the future, the Borrow option will **+1-(888)(303)(8807)** automatically appear within your Cash **+1-(888)(303)(8807)** App, allowing you to review the available loan amount, repayment terms, and applicable fees before **+1-(888)(303)(8807)** accepting the offer.

Related FAQs
